

# Flexible Modular Scheduling

June 4, 2018

## “THE PERKS”

- Increases student ownership of time
- Increases opportunity for students to work with teachers during the school day rather than lunch time or after school.
- Students have the option of taking more than 6-7 classes if they choose
- Allows for completion of homework within the school day

# What does a day look like?

Each school day will be comprised of 21 mods that are 20 minutes long.

1st mod will be an advisory period which would include God Time, announcements, and grade accountability. Your advisory period will be a kind of homeroom.

Mods 12 & 13 will be lunch time for everyone.

## Schedule Structure

# What about passing times?

- Every mod begins at its scheduled time
- Teachers will dismiss students 4 minutes early from their class to accommodate passing time
  - For example: US History would dismiss at 9:10 so students could report to Biology at 9:14

## What about attendance?

Attendance will be taken during all classes.

You will be required to attend all large group and small group mods of your class, but the learning labs will be optional unless you fall behind in your work or your grade drops below a C -.
